Creator of Mister Rooster and Pals! Multi-Platform Brand, Concept and Website

Donna Cardellino

Donna had a dream about the character Mister Rooster. She envisioned how Mister Rooster could reach out to many children worldwide to teach life lessons. Her writing and music background incorporated songs, books, humor, and characters that children and parents enjoy. Mister Rooster and Pals! is a multi-platform brand that offers fun ways to learn, play, and read more…with hours of family bonding!

The remaining characters are…Henrietta, the Wise Ole' Owl, Benny the bashful Bunny and Waddles the laid back Ducky, who all came to life with their own special personalities. Mister Rooster and Pals! is here to enter into the homes of our next generation, teach Life Lessons, have fun with games, music, videos, humor and so much more!

Donna wants to offer parents, guardians, and all who are looking over our next generation of kids, the peace of mind that the Mister Rooster and Pals! brand, concept, and website are safe environments to enjoy. We want families to have fun, learn social and developmental skills, bring back some basics in life, and build great family bonding memories together!
